

# 1 Juice Functions

In R, the functions in this package are made available with

```
> library("juice")  
> ls()
```

As of R-2.1.0 the code from the vignette that generates this guide can be loaded into an editor with `edit(vignette("juice"))`. This uses the default editor, which can be changed using `options()`. Also, it should be possible to view the pdf version of the guide for this package with `print(vignette("juice"))` and the guide for the dse bundle with `print(vignette("dse-guide"))`.

Not yet.
