

RcppResultSet::add

```
graph LR; A[RcppResultSet::add] --> B[RcppVector::cVector]; A --> C[RcppVector::size];
```

The diagram illustrates a function call from `RcppResultSet::add` to two other functions. The source function, `RcppResultSet::add`, is represented by a gray rectangular box on the left. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box labeled `RcppVector::cVector`. The bottom arrow points to another white rectangular box labeled `RcppVector::size`. All boxes have a black border, and the arrows are solid blue.
